Stan says: We "invented" the GOGH BOX! Specifically to allow pastel artists to take it with them on the plane, train and automobiles. (We tested it through airport security) Fits in a backpack! No need for an easel and the tripod is just an option as this sits on a bench, your lap or a table too! Always ready to GO! Everything is packed tightly inside and you can take as much as 10-15 pre cut papers with you, enough for a whole weekend! Just load the small foam lined cardboard box with an assortment of your favorite pastels (it will hold @ 60 Terry Ludwigs) You will even look fashionable! Students love it and were happy this was all they brought to Scotland and Iceland and France for weeks of painting! **\$189.00**
